# Hi Viz RECOIL PADS

**HI VIZ XCOIL Recoil Pads 30% more effective than the next closest competitor!!**

The XCoil pad from HiViz Shooting Systems is constructed of a revolutionary composite proven superior at dampening recoil. In testing, it has been proven to absorb felt recoil more effectively than any other recoil pad currently available.

## SELECTION

The new HiViz XCoil is currently offered in two configurations — a radiused heel design for target shotgunners and a universal pad that fits virtually all rifles and shotguns. Each configuration is available in small, medium, large and extra large sizes to accommodate most model guns. For best results, HiViz strongly urges that the services of a competent gunsmith be used for installing the XCoil.
