

MAE SUPPRESSORS

22LR 'MIGHTY MOUSE' MUZZLE CANS

From the MAE range of suppressors is the .22 long rifle muzzle can, this is a light weight product constructed from 6000 grade aluminium, the rear section is screw cut to fit most makes and models of .22LR rifles.

The front cap is knurled to allow ease of disassembly for cleaning.

The internals consist of a non- static baffle system with the addition of coil springs to aid with acoustic suppression. This model comes in both silver and black powder coated finishes to cater for both stainless and blued rifles.
