All in One Feeder

The All-in-One feeder series by Moultrie includes everything you need to start feeding and there's no assembly needed! Just grab the bucket by the handle and pull it out of the box. The feeder, bucket, funnel and batteries are ready for you to use. The timer model gives you more control with a programmable digital timer that feeds up to four times a day. All you have to do is just add the feed..

- No Assembly!
- 5-gallon plastic, tapered bucket
- Digital timer programs up to 4 different feed times a day
- Metal spin plate
- Adjustable feed times (1-20 seconds)
- Test button for easy set-up
- Capability to attach solar panel (not included; only compatible with rechargeable batteries)
- New efficiencies and battery design doubles run time, providing 4 months field life!
