V9

V7

The variable power of the V-Series scopes makes up for the surprises wild game can throw at you. On low power, the field of view is as wide as possible to help you find game that pops up fast. Our power adjustment ring has a raised sure-grip pattern that helps you crank it up quickly, even with heavy gloves on. And the V-Series eye relief is long and forgiving, so hunters can spend those first precious seconds adjusting the scope instead of their head position. All V-Series scopes feature fully multi-coated lenses to enhance light transmission and give you edge-to-edge clarity. Their solid, one-piece construction makes them waterproof, fogproof and shockproof. Each V-Series is designed to be a reliable shooting partner for years to come.

Grandslam 3-10 x 40

Grandslam 4.5-14 x 40

Grand Slam riflescopes compare to the best of the best at the sporting goods counter — except for our price tag. All Grand Slam scopes are equipped with the Micro-Trac 4 point adjustment system, the best in the industry. Fully multi-coated lenses reduce glare, increase image brightness and give you edge-to-edge clarity — they're outstanding in low-light situations. Grand Slam scopes also feature a fast-focus eyepiece adjustment ring to adjust the scope perfectly to your eye. The Weaver "sure grip" power ring helps you find and adjust the scopes' variables, even with heavy hunting gloves on. Finally, the Grand Slams' solid, one-piece construction makes them waterproof, fogproof, and shockproof, so they'll last for years to come.

SCOPES

Classic Extreme Scopes

CLASSIC EXTREME SCOPES	
800702	CL EXT 1.5-4.5X24 MATTE DPLX
800704	CL EXT 2.5-10X50 SP MATTE DPLX

Classic Extreme 2.5-10 x 50

The Extreme series is true to Weaver's long heritage in riflescope design... built for hunters who need their scopes to perform flawlessly regardless of the time, the environment, or the conditions.

The Extreme's one-piece, 30mm tubes combined with Weaver's legendary fully multi-coated optics deliver the image quality you need at those times when other scopes cease to perform. Precision machining and dry nitrogen purging guarantee years of rugged service and protection from the environment. Free-wheel re-settable w/e dials, fast-focus eyepieces, side-focus parallax adjustments*, illuminated center-dot reticles, and 4 inches of eye relief deliver the edge you need to make that shot-of-a-lifetime under any condition.

Classic Rimfire Scopes

CLASSIC RIMFIRE SCOPES	
849398	CLASSIC 3-9X32 A/O MATTE DUAL-X
849430	CLASSIC 4X28 MATTE DUAL-X
849431	CLASSIC 2.5-7X28 MATTE DUAL-X
849432	CLASSIC 2.5-7X28 SILVER DUAL-X

Classic Rimfire 2.5-7 x 28

Rimfire Scopes can make the most out of .22s and airguns. That's because we put big effort into scopes for smaller calibers. They're designed with the same rugged, sturdy one-piece aluminum housing that keep our larger scopes waterproof and fogproof, they have the same fully multi-coated, nonglare lenses, and with 28mm objective lenses they deliver excellent low-light brightness, just like every Weaver does.

Classic K Scopes

CLASSIC K SCOPES	
849415	CLASSIC 4X38 MATTE DUAL-X
849418	CLASSIC 6X38 MATTE DUAL-X

Classic K Scope 4 x 38

Our fixed K-Series scopes are monuments to durability and affordability. Fixed scopes have fewer moving parts, so they can take more punishment season after season. Fully multi-coated lenses improve image brightness and reduce glare. A one-piece, aircraft-grade aluminum tube holds the lenses in perfect alignment. They're waterproof, fogproof and shockproof — if you don't count the pleasant shock you'll get when you look at the price tag.
